

KINGSWAY, STRETFORD PROJECT UPDATE

Further to previous notices, the works to Kingsway is about to start. As part of the improvements, Trafford Council is looking to make the Kingsway and Barton Road junction safer and greener as part of its transformation of the town. Plans include new crossing points, cycle lanes, footpaths, trees and green spaces. The Kingsway carriageway is also being re-designed to help reduce speeds and improve space for cyclists and pedestrians.

Traffic Management will start to be installed week commencing 22nd May 2023 and will involve the reduction in vehicle lanes moving from Edge Lane to Barton Road, from 2 lanes to 1 lane. Traffic from Barton Road moving towards Edge Lane will not be able to use Kingsway and as such will be diverted around the Gyratory to the south or Davyhulme Road to the north, please see overleaf for the diversion plan.

Busses will also follow these diversions with the existing stops of Edge Lane, Urmston Lane and the A56 remaining in place and these will serve the 2 existing stops on Kingsway that will be closed for the duration of the works.

Further updates will be provided in the near future however in the meantime if you have any concerns please contact Adele Carroll from AE Yates as detailed below.

Please note that these works are being managed by Trafford Council and not Bruntwood or Stretford Mall.
